

Transcript Episode Three: You Make My Dreams (Come True)

Out of Touch: A Hall and Oates Podcast

Mary Kay Holmes, Naomi Schoenfeld, Brian Duck

00;00;11;15 - 00;00;38;08

Unknown

So here we are. Good morning. Good morning. I've got my morning beverage. Yeah, me too. I've got a delicious mustache, right? That's our mustache, right? Yes. So this is episode three of Out-of-touch Hall and Oates podcast. Yep. Yep. I'm going to talk about today. We're going to talk about you make my dreams parentheses come true. Those parentheses are very very crucial because they really change the meaning of everything.

00;00;38;18 - 00;01;06;01

Unknown

And there's a lot of songs with parentheses that we can think that we can get into, but I can't go for that. No, can do. Being another example of that, actually, we are going to have to have some kind of like a grammar titon, if that is. Oh, yeah, for sure. I mean, why not like an English teacher say, you know, the grammar allergist, grammar, grammar, toast, grammar, criminologist, primatologists, I think that.

00;01;06;02 - 00;01;26;23

Unknown

Yeah, yeah, we should fine. Definitely find somebody to find out about that. And also, you know, someday just ask a songwriter, why make a song if you're going to put half of it in parentheses? Actually, you know, in anthropology, parentheses are very, very popular. Like, it's really, really common. I'm working on a manuscript right now. I have a parentheses over just the letter s.

00;01;27;02 - 00;01;48;28

Unknown

I'm not going to say more about it, but meaning a singular or a plural like. Yeah, but it's like, it's it does so much. It's really like the implication of what it means to have that parentheses. There is so much I could, I could, you know, there's volumes written about this in terms of the academic literature now what it's doing in Hall and Oates song titles.

00;01;49;13 - 00;02;08;25

Unknown

That's something different. And I do think we need to talk about that. But we also we wanted to talk about the Mustache Ride for a moment. Yes. Yes. We do want to talk about the mustache. Right. And one of the guests we're going to have. Oh, yeah, man. We've got a really, really crazy busy show for you guys today.

00;02;08;25 - 00;02;33;03

Unknown

You don't even know how much fun we're about to have. An amazing guest coming on who is a mustache specialist, fashion specialist. His name is Brian Duck, and he is the owner of the Italia Management Company. Both here and in New York and Los Angeles and New York. He's a very fancy gentleman that we love very much. So he is he's going to be coming on here in a few minutes.

00;02;33;28 - 00;03;05;18

Unknown

But first, we talk about the mustache, right? So the mustache, right. Comes to us from a website called Kindred Cocktails. And it is essentially bourbon cider, lemon juice, maple sirup, allspice, dram, lemon peel and a cherry. And I will admit that I had to make a few changes to mine. I did to I want to go on the record by saying my understanding is that it's pronounced Chin R, but I could be I could be mistaken, but I don't.

00;03;05;20 - 00;03;27;11

Unknown

But I just like to put that out there. I appreciate that because it's a word I have never said out loud. I've seen it with my face, but I've never said it with my mouth. And you know what it is, right? Sure. No. Tell us, artichoke the core because that's the flavor that most people want to be drinking with their alcohol when I think I was coming forward here.

00;03;27;13 - 00;03;56;21

Unknown

Oh, yeah. I want something that's artichoke forward. So the tenor, which, you know, it's Shiner. We checked up originally a liqueur of 16.5% alcohol. It's an Italian liqueur. Oh, very. Okay. And so the thing I wanted to say I want to bring forward is low up bourbon, low gout, bourbon, is it is bottled by the American Craft Whiskey Distillery in Redwood Valley, California.

00;03;56;21 - 00;04;19;04

Unknown

I got this from this really great little liquor store in Pointe Arena. This is up on the Mendocino Coast. We were staying in this old A-frame cabin that belongs to a cashier built apparently by his grandfather. Wow. But anyway, I'm a huge fan of this bourbon. The one substitute I had to make today was I didn't have that.

00;04;20;22 - 00;04;46;18

Unknown

What was that? All spice dram. Yeah, I didn't have that either. Let's you want to just read out the recipe for people this, you know, the forbidden bourbon, china, lemon juice, maple sirup, allspice, dram, lemon peel and cherry. Yes. Yeah. I did not have Chinese, so I used Campari, which it said was a reasonable substitute, even though it is not an artichoke liquor.

00;04;47;01 - 00;05;06;08

Unknown

And I did not have all spiced dram. So I used bitters, which it also said was a reasonable substitute so yeah, I did that. I did, but I had chocolate moly bitters. Oh, and how how does that taste? Well, the whole thing is very intense, what with the artichoke and then the way. And there might be too much going on on this stuff.

00;05;06;08 - 00;05;26;01

Unknown

Right. And I also just want to say maybe this begs the question, but as mustache ride like a title of a drink. Well, I think, you know, it could go many different ways. Sure. I know which way it goes. I pretty sure that anyone listening knows which way it goes and anyone under ten doesn't know which way it goes.

00;05;26;01 - 00;05;47;02

Unknown

And that's probably fine for them to not know. It could be like a ride at a amusement park you know? That's right. It's about stuff, right where you're going to go so deep and mustaches. And I'm so excited. I'm so excited to talk about this. And we're also we wanted to start just trying to get people to what to follow our podcast.

00;05;47;02 - 00;06;23;10

Unknown

Is that something we're thinking? Yeah. Yeah. I mean, we definitely we want to get people following us on the socials. We've got, you know, Hall and Oates podcast on Instagram, Holland Oates pod on Twitter. We've got a website now W WW that Holland Oates podcast dot com and recently and there is nothing there yet but we have a tick tock which is Hall and Oates podcast on Tick Tock so if you like this podcast, what would be really helpful for us is if you subscribe on Apple and then leave a review because that helps with the algorithm and the things and helps people find it.

00;06;23;10 - 00;06;38;08

Unknown

So but let's be clear, there's only one kind of review we want you to leave and that's a five star review. That's a five star review. If you're going to leave anything less than a five star review, you can skip the review part. If you don't have a five star experience on the Smaller Notes podcast, you will not get your money back.

00;06;38;08 - 00;06;59;03

Unknown

And frankly, we don't want to hear from you. You can you can, you know, get all of us in different ways to address your concern as opposed to leaving review one 800 Gmail one 800 Gmail O Canoga Park has the gmail.com. You have a four star review your left up or you can leave it. That's where you can leave it.

00;06;59;03 - 00;07;22;20

Unknown

Leave it at home. Notes Podcast gmail.com and we will get back to you within 72 business hours. With our opinions on all of that, you're going to say 70 to your business days, 72 business days. So we will get back to you in 72 business days. That's standard protocol here at the Holidays podcast we're very, very busy. Well, there is a labor shortage so.

00;07;22;26 - 00;07;44;11

Unknown

So. So one thing that I want to throw out to you when I was doing my research on you make my dreams parenthesis come true, what was an episode of Live From Daryl's House, which I don't know if you've watched this show yet, but it's the show that's Live From Daryl's House and he had Kenny Loggins on to sing the song.

00;07;44;11 - 00;08;06;07

Unknown

Oh, wow. Talk about. Oh, yes. So yeah, talk about Stash in the house. Like that's is pretty legit. And I also want to point out something that I noticed this week, which is, you know, Oats has shed the stash and he's been known for saying that it was kind of a rebirth for him. Right. Letting go of the old oats coming into the new oats.

00;08;06;24 - 00;08;27;17

Unknown

He's a different guy now. No stash. But what I did notice is that Daryl home now has a goatee. Oh, it's like there's like, what is that law of physics, right? Like matter can neither be created nor destroyed. So but between Hall and Oates, it has to shift, right? It so so it just shifted. It couldn't just, like, vanish into the ether.

00;08;27;26 - 00;08;45;16

Unknown

No, no. The mass of the mustache couldn't really turn out. Just leave. It couldn't be like mustache out. It had to stick around. So it just called it's way on over to Daryl's face. But what I want to know is, on a deeper level, you know, what does that mean for Daryl in his in his journey right now?

00;08;45;29 - 00;09;07;05

Unknown

Like, is he now? Oh, it was once the mustache. Right now. Is Daryl the mustache, right? Just thrown it out there. Well, I want to make sure that we this we circle back to this very key question when our guest comes on, which is very shortly, because, you know, these are just the kind of issues that I think he's going to have a lot of expertise on.

00;09;07;24 - 00;09;33;07

Unknown

Oh, for sure. But for sure, we before we go deep in there, I have just one more question for you about the parentheses. Yes. What do you think? How do you think the meaning

of the song would be different if it didn't have those parentheses? Well, see, for me as a writer, obviously a different but a little for me rather than you being a politician, not a politician, an anthropologist and a politician.

00;09;34;10 - 00;10;04;13

Unknown

Politician. So, like the difference between the sentence you make my dreams, right? Like you are the thing that makes my my dream, my dreams are made of you or that that you. Right. You think you might dream true. You make my dreams come true. You make dreams that I already have come true. So it's a very different meaning if you think about it like she or he are either making the dreams or they're taking dreams that exist and making them true.

00;10;06;00 - 00;10;32;22

Unknown

It's a very different you could be architect of the dream. Right. Which is actually super cool. That's like the Matrix, right? Are you the contractor or the contractor? You're either you know, the guy that that creates factor. Well, like, okay, like, if this is a house, let's say the song was a house. You're the architect, right? You're making the dreams you're making the house, coming up with the concept or you're the one that makes it come true.

00;10;32;22 - 00;10;54;23

Unknown

You're the one that actually follows through on it, which would be the contractor or do you want to be the architect or do you want to be the contractor? Both have merit and value. They do. Both are important. It's just it's an interesting question. Then, as to which one which one we were going with. Yeah. Yeah. Well, it just goes to show you that parentheses do a lot of work.

00;10;55;04 - 00;11;09;19

Unknown

Yeah. I mean, I think, like, I'm seeing a future episode, just it's just all about the premises. Although is it just those two songs? We'll have to do a little bit more research. Yeah, I want to do a little bit more research up you guys we've got somebody in the waiting room the very night I. So you better let them in.

00;11;10;03 - 00;11;31;11

Unknown

The writing deck is in the waiting room. I'm going to admit him. Go for it. Here he comes. Here he is coming in and is connecting to audio. Hi. Hi, Brian. How are you? There you are. How are you? I'm good. We were just starting to get into a little mustache conversation and then realized we should. We should wait.

00;11;31;14 - 00;11;54;02

Unknown

We should pump the brakes for the expert. I hope I'm an expert. I guess I have to put it out there that your husband has a pretty glorious mustache beard situation happening right now. Chad So I think I would like to kick it off with. Do you like a mustache or your mustache kind of guy? I do. Yes, I do.

00;11;54;13 - 00;12;21;04

Unknown

I like facial hair. Yeah. See, I'm the same. I like a mustache. I like a beard. I like scruff. I like all the things. Naomi, where do you stand on mustaches? I mean, this is a complicated question, but before I dove further and that Brian, we got just a little introduction for you, and I think I wanted to make sure that we gave an opportunity for you to kind of just come forward at the beginning with, like, you know, how might.

00;12;21;13 - 00;12;45;04

Unknown

How are you coming to a position where you might be invited to comment on mustaches and fashion and all of that? So I have an agency for photographers, hair, makeup, wardrobe, and I own a production company as well. We work on a lot of fashion. So with my line of work, I end up ingesting a lot of imagery of trends of throwback trends.

00;12;45;12 - 00;13;14;05

Unknown

You know, you study trends from the past and you know, they recreate it all the time and they're made into new whole different trends. So, you know, I had one thing I do have is a visual inventory of just, you know, all different types of looks for men, women, children, all of it. I love it, actually. Maybe that's the new frontier of look for children as mustaches that that would be amazing.

00;13;14;05 - 00;13;36;04

Unknown

Although I do have to say I found these bad boys, which everybody can't is listening, can't see. But it's a it's a pack of mighty mustaches, their adhesive mustaches that I discovered in one of my kid's rooms this week. So at some point I'll have to podcast with the mustache on. That's very fitting. I mean, just to answer your question about how I feel about a mustache, it's not straightforward.

00;13;36;08 - 00;14;03;14

Unknown

I feel really conflicted. I mean, I think in part as far as like when I am like looking for what I find attractive, the straight up mustache is not my favorite look, my number one favorite look. However, the certain exceptions have to be made. And I think that, you know, when I compare, for example, just random John Oates with a mustache and without a mustache, I'm definitely definitely on the mustache side.

00;14;03;24 - 00;14;22;07

Unknown

Yes. Yes, without a doubt. And it maybe it's just like my brain is just like imprinted with that mustache. And so to see him without it is actually very disturbing. It is. And I actually discovered years ago that I always thought that I was kind of more of a scruffy beard kind of person. But then I watched Narcos did either of you watch Narcos like the first season of Narcos?

00;14;22;11 - 00;14;45;11

Unknown

Pedro Pascal, who is a gorgeous, gorgeous man, he walks a stash in Narcos. And I was like, you know what? I'm down with? Just the stash officially. Officially has brought me over to the mustache land. Certain faces definitely benefit from the mustache. Yeah. And it's shocking when they remember for sure. For sure. Yeah, for sure. So what can you tell us?

00;14;45;11 - 00;15;05;10

Unknown

Like, if you're counseling someone regarding their face, and whether or not their face could benefit from a mustache, what are some of the considerations? Well, I think, you know, everything is always trying things, you know, and so in a drawn out situation, if I if I were to be like working in that world, the thing is, he looks very young without a mustache.

00;15;05;12 - 00;15;11;28

Unknown

And he also is sort of a slight person. He's not very big. I mean, you see him compared to his partner.

00;15;14;08 - 00;15;33;10

Unknown

And and so I think it really it ages him to the age you want your your pop star to be, you know, feel like it gives him sort of maturity. And I think yeah. And I think mustaches especially are so groomed you have to be someone who's interested in grooming yourself. So it sort of puts you in a different category.

00;15;33;10 - 00;15;50;21

Unknown

I feel like a man of like someone who's really paying attention to how you look because you know, it takes time to have a nice mustache. I mean, it's not just something you can wake up with and just get especially his second. Wait a second. Tell me about mustache grooming, because I never never occurred to add a mustache would require labor.

00;15;50;22 - 00;16;08;20

Unknown

Well, you have to you have to shape it. You know, like when you're you know, when you're when you're shaving and you have to shave it, you have to consciously say to yourself, I'm going to take everything off except this one little strip right here. And then you have to also, like, look at your face and be always aware of does it balance is it right?

00;16;08;23 - 00;16;25;22

Unknown

It's taken up as a dark enough because some men can't pull it off. It's not dark enough. So ends up looking like sort of dirt on their upper lip. Actually, I grew them around the lips so the never smooching can get to your lips. So you have to, like, trim around here. If you go too short on one side, then you got to bring the other side up.

00;16;25;22 - 00;16;46;04

Unknown

Then you're getting into dangerous territory as it gets smaller. Some men keep this open. You know, what is that called? The little dance between the lips. I think it's called the French alarm. Fenella. Here you go. There you go. This is why we all balance it about some people. I mean, you see the different styles of mustaches. You know, people put the wax on the ends and all those things.

00;16;46;11 - 00;17;07;24

Unknown

So when men have facial hair, that's groomed well, and it gives me an idea of like, okay, that's someone who cares about the way they look, you know, because facial hair looks really unruly very quickly. So you have to be very even people who have the 5:00 shadow that is fully groomed, every celebrity you see that has like a little growth, that's like perfectly prepared by some groomer or somebody helping them.

00;17;08;05 - 00;17;30;00

Unknown

Right. And I think I just I think that it just I feel like it just adds a level of maturity. I mean, men with facial hair look like they have mortgages. You know, they look like they have. Oh, yeah. Yeah. Good facial hair. Not harmless looking facial hair, just like, you know. Right. Not like, I mean, you know, when it's disheveled and it's a little crazy, then obviously you probably have a different point of view.

00;17;30;00 - 00;17;51;04

Unknown

But that's a really good point. He has a very nicely groomed, potentially even tinted stache as he got older, probably tinted to keep it lush and thick looking, especially in this video, you know, and you make my dreams video his it's a solid dark stache. There's no gray there's no variation like it matches his hair, I guess. Like that's not carpet and drapes.

00;17;51;04 - 00;18;12;17

Unknown

That's carpet and couch. I don't know what you would but it's yeah. You know, it's it's it's perfectly groomed and that's a good that's a good point. That's a good way to look at adults as a groomed man. With a mortgage. Well, and also, you know, darkening facial hair makes you look 15 years younger. Like I have a lot of gray.

00;18;12;17 - 00;18;29;11

Unknown

But if I were to do like, you know, just for men situation I would look in my twenties, you know. So it's that's another sort of way to get, you know, keep people looking young and fresh just by they they color their their beard. Well, let me also go on the record to say that I like a little salt and pepper and the facial hair.

00;18;29;11 - 00;18;47;29

Unknown

I find that quite attractive. Yeah. I don't know about salt, pepper, mustache, but it has to work with your color because again, you don't want to look like you have dirt on your face far away, you know, and if it's just like really white and it just like blends and then, you know, people can't tell if that doesn't work, it's patchy.

00;18;47;29 - 00;19;14;20

Unknown

You know, you have one side that's gray and the other side is brown. And then over here, then you want even. Yeah, yeah. It needs to be like a raccoon or a skunk. Well, we don't, we don't want to do that. We definitely, definitely do not want to do that. And I was just telling Naomi, right before you came on so I've noticed in recent years, oh, it has shed his mustache as like getting rid of the past, moving into the man he is now, Daryl Hall has grown a goatee.

00;19;14;28 - 00;19;30;16

Unknown

So now as a 70 year old man, he's got this fresh goatee. And I'm not exactly sure what year the goatee made the appearance, but what I want to know is like, is he, like, launching into the fun years now? Like, is he, you know, as an older man with a goatee? Probably. I feel like goatee is like a fun thing for older guys.

00;19;30;16 - 00;19;50;12

Unknown

I don't like a goatee at all. I feel like it's it's either a beard or a mustache, like the good the halfway goatee situation. It starts to look odd, especially in profiles. Like it's it's just that's how I feel that way about the Chinstrap, the leprechaun one, whatever that one's called. No mustache. Just like the is an abomination to me.

00;19;50;12 - 00;20;08;14

Unknown

And it's like the opposite of a mustache. Really. It's not good. It's thing is true. I think about the time you're grooming. It's like you. So you're consciously making a decision to shave everything except this one strip and I'm just like, what is that thought process? Like, I don't, you know? Right. And what are we emphasizing and de-emphasizing?

00;20;08;14 - 00;20;29;09

Unknown

And because there's a whole, like, you know, jaw thing that happens with how you groom your facial hair, right? You know, accentuating a chiseled or making it look more chiseled or, you know, whatever it is you're doing here. And and the chinstrap, I immediately go to leprechaun is not a word we can say that's not offensive word, but becomes real things like creature feature.

00;20;29;20 - 00;20;48;15

Unknown

I it you know, I just don't want to offend the Irish. No one wants the Irish coming for us to that point. Like Freddie Mercury, like that. His mustache fixed his facial because, you know, he has like extra teeth or something like he had like a massive like Horse Grille. And once he has that mustache on, it's like if all blacks like, they are so sexy.

00;20;48;15 - 00;21;08;29

Unknown

He's a perfect example of a super sexy mustache. Yep. Yeah, yeah. 100% Obama, Freddie Mercury and all the things about Freddie Mercury. I have some questions I want to just because you talked about sort of having this visual inventory of like going back and forth and the trends resurging, like Holland Oates have been recording music for 50 years.

00;21;08;29 - 00;21;30;16

Unknown

I got their start in 1972. So the seventies is like a really a prime mustache time. So I'm wondering, you know, using that kind of like visual legacy that you have, if you can talk about any kind of distinctive features of like if there is such a thing as a seventies mustache and eighties mustache and nineties mustache, that kind of thing.

00;21;31;02 - 00;21;51;04

Unknown

Well, I think Nineties got more into the highlight rooms where it was much thinner like where you saw a lot more of like, you know, they just had a little sort of hint of it. Seventies is full like just like the hair wavy, it's just more free bigger, more of a, you know, sort of leftover hippie disco situation.

00;21;52;27 - 00;22;16;09

Unknown

And I think, I think it just, you know, I mean it all there's only so much you can do, you know, there's only so much you can do with the mustache. But I definitely think that in

the nineties it got a lot more of just almost like a pencil line, you know, that was much more of a look like I'm thinking of Addams Family, Raul Julia, you know, like that where he just had this little head of something like John Waters, he's still exact yeah, exactly.

00;22;16;10 - 00;22;46;02

Unknown

But that was a little bit campy. Those figures are a little campy. Can we think about can we bring some more forward from the mainstream? But with the had a little bit of that pencil strain that Picasso have like a little but he also a escape from nineties I'm sorry I see out is mainstream but you know I love like Edward Scissorhands I'm trying to think like oh yes yes that's a little lost to Johnny Depp have a tiny mustache and Edward Scissorhands he has had one god what are those movies he's had one will Jack Sparrow.

00;22;46;02 - 00;23;05;23

Unknown

Does he have a little bit I don't know. Oh I'll go in like water for chocolate with what? I think he had a mustache solo. Yes. And Johnny Depp is a perfect example of someone who could do whatever he wants with his facial hair and be just fine. He can accept that now. He is. He's totally off. He's off my list.

00;23;06;07 - 00;23;30;14

Unknown

You know, for what it's worth, Johnny Depp, you're off my list. Yeah. I mean, he's older now. He's not the dude. It's not about the age because he's still good looking but he's just, you know, his abominable without the scandal, we won't get into the third. But I thought, okay, yeah, sorry about that for 45 minutes. So it was my movie has been for many years, so I still have like very strong reactions.

00;23;30;15 - 00;23;50;19

Unknown

So he was in your top five for many years. Top to do. Sparrow is like my favorite one of my favorite characters ever. That was a character ever been created. And I like that facial hair. I mean, as you know, Naomi and I joke about our types of men are a little bit different. You know, I like them, you know, hairy and dirty, and she likes them skinny and scary.

00;23;50;24 - 00;24;24;21

Unknown

So we kind of have scary shirt, you know, like very scary and scary versus, you know, dirty and grungy. So Jack Sparrow, that whole thing works for me. And really, really, that's where we cross over. That is true. Crossover is just so interesting that as over it's getting scary down in the mud. Yeah. So it's so perfect. Everything about his styling, every I'm just like, this is so consistent, thorough, all all of the things so I have a question about fashion for you, Brian.

00;24;24;21 - 00;24;49;05

Unknown

So when you watch a video like that you make my dreams video obviously that's super super eight is fashion like just to get to know more eighties then that it was 1980 it was like the thing so do you see anything, you know influences from that video. Are we doing eighties right now. Are we doing nineties. I feel like koans like it's a Yohji very Yohji Yamamoto it's very Japanese like their style is very sort of Japanese eighties.

00;24;49;13 - 00;25;17;26

Unknown

Okay. And I definitely think that that with the, you know, the Kanye West vibe, the Rick Owens vibe. That's right. Brutalist modern, you know, with those big shapes and big silhouettes and the shoulders. And so I think that yeah, versions of it are always going to be around, you know, definitely see that becoming more and more of a thing of that, you know, that sort of Yohji sort of vibe, which is very minimalist.

00;25;17;26 - 00;25;36;28

Unknown

And it's not about I mean, it's not about having the most amount of different types of clothes. It's sort of like you just have an outfit, a costume, you know, it's like the jacket, the shirt, the pants, you know, it's, that's it, that's it. And it's about the, the cut and the silhouette. Yeah, but I think that, that, you know, the version of that has never gone away.

00;25;37;00 - 00;25;57;02

Unknown

Armani has just regurgitated that throughout the years. You know, yes. They update what the trends of how people want to live and how they dress. You know, like I notice now a lot of the men's clothes have like the, the the sweat pants tops. They don't even have like anymore because people are, you know, they're working mom sweat, you know, so so those things.

00;25;57;02 - 00;26;20;23

Unknown

But yeah, no, I mean, it's not that look, we'll never go away it's a very it's a category of fashion that will never go away. Yeah. I mean, I feel like the sleeveless T and the jeans like you toss that on anybody any age, you know, and it's going to it's going to work. You let me look a little bit let me open that up again because what I thought was going on and maybe I'm wrong, I thought there was a double layered T with the sleeves rolled up that that was that what's happening?

00;26;20;23 - 00;26;40;24

Unknown

It could be, you know, I have to pull it in my brain. It's a sleeveless turquoise T, but maybe it is a rolled sleeves. I think it is. Yeah. It's a roll. Okay. Oh, gosh. I remember wanting to tee shirts and rolling them up so the sleeves would be a different color. No, I don't. You don't? I mean, is that.

00;26;40;24 - 00;26;56;05

Unknown

Yeah, I guess it's like two t shirts. Interesting. Now they just make one piece. I mean, they just make pieces that look like that, right? It's like a double sleeve on a single t shirt. To work so hard layering those t shirts, which isn't the socks. I remember when you would wear two or three pairs of socks so you could scrunch them down, and you have the three colors.

00;26;56;05 - 00;27;13;16

Unknown

But I do remember. Yeah, yeah. That, like, tiered color thing with the white Reeboks that. Now that was a look. It's great style. I just if I were to go in, I would change his hair. I just don't like his hair. Right. Okay. What do you like about it, though? I think it's just too big of a shape.

00;27;13;16 - 00;27;35;16

Unknown

I would just shape it differently. It is a bold shape, but even though, first of all, I don't want to just remember and remind us of the ground rules of the podcast, it's all about respect. Oh, 100%. You're not breaking them? No, he's not. You're not breaking them. Absolutely not. Not at all. Not at all. I just as for our listeners, but let's just take a step back into that year.

00;27;35;16 - 00;28;00;25

Unknown

What year was this video the song came out in? 80. So I'm going to guess the video was. Yeah. Okay. So at the time, is this like is he just like the high end on his fashion is just like not good for his face? Is he like, oh, no. Problematic hairstyle in general. I mean, I think that this was probably before you had so many people consulting with you styling wise.

00;28;01;05 - 00;28;18;15

Unknown

So I wouldn't be surprised if this is just like some friend of his was like, oh, let me do your hair, I'll cut your hair or whatever, you know? Right. And that was less I mean, I feel like when you hear from those days, people didn't have stylists, hair stylists, you know, there was no discussion truly, other than maybe, you know, cleaning up and looking nice for the video shoot.

00;28;18;15 - 00;28;37;09

Unknown

There wasn't like a big team behind you. Right. And there was kind of a thing for the curly many mullet, right? Like that was sort of a thing that happened while, you know, it was this thing. I think it's a mullet. That's just that. What's the heyday of the curly mullet? You know, I think in some places that hasn't gone away, you know?

00;28;37;15 - 00;29;03;25

Unknown

Yeah. Yeah. I've actually seen a lot of, you know, like K-pop kids that do the perms still and then they do, like, the bright color. And then they I've seen some of that. Really? Yeah. Yeah. And I don't know if necessarily like the lightened perms are still happening as much, but for a while it was like in Japan and Korea, there was a lot of like perm your hair like to the point of no return and then bleach it to the point of no return.

00;29;03;25 - 00;29;19;26

Unknown

And then you've got this curly craziness. I'm here to tell you, as a kid who grew up with curly hair, I did not know until I was like in my twenties that I could blow it out. But I wasn't trapped with the curls, so maybe just didn't know at that time that he could do something different. Yeah, yeah.

00;29;19;27 - 00;29;37;13

Unknown

I mean, it's not bad, so it's not bad. I just I think if he had had a few more voices in that conversation that end up just in a little bit. I think everything else I love just that's the one thing I'd be like, Okay, I would. Yeah. Because there are people from that era that like hold up 1,000%.

00;29;37;13 - 00;30;00;25

Unknown

David Bowie, like, yeah. Everything about him holds up. Like, you throw a picture of him from the seventies, eighties, it always works. Yeah, you're so right. He's a big, the good example of the mullet that works because it's done and it's actually, it's like he fully thought about it, like it's slicked right here, long right there. It has sort of a fifties vibe, you know, sort of a throwback to like an Elvis Z type thing.

00;30;00;25 - 00;30;16;22

Unknown

So yeah, yeah. No, that's a really good example of a mullet that. Yeah, that's kind of like, like if you were, if you are on a John Otis team at that point, like a styling team, like, do you think you could have made a slight suggestion that would have cut his overall character but like kind of just made the whole thing work a little bit better?

00;30;17;22 - 00;30;41;01

Unknown

I would. I mean, I would always just find someone who I thought would he would pair with perfectly like a hair person that he would buy with and they could just run with it just like find out what works for him. But it's like a little bit, a little bit less, you know, my hairstyle, it's like they would do research like they will pull boards together of like all the different versions of what you like, you know, and then they sort of subtle and it's never changing the person.

00;30;41;01 - 00;31;00;14

Unknown

It's always working with what they're into so it's like if he's like, I like my mullet, then it's like, okay, let's explore how we can make it better so that I would just pair him with the right person who's like, I have a really solid hair person. Oh, let's, let's switch it over to Daryl Hall for a second who has fantastic hair, in my humble opinion, but I'd like to know the expert opinion there.

00;31;01;05 - 00;31;24;23

Unknown

Yeah, I missed the first part. Daryl Hall, Daryl Hall, the hall hair, blond, floppy. I mean, it's it's like every man's hair at that era. I mean, he, he looks like someone's uncle, someone's dad, someone's brother, you know? I mean, you know what I mean? He just sort of got hot uncle, very, very attractive. But he's, you know, he's like, I feel like the visual stimulation is John Oates.

00;31;25;01 - 00;31;49;10

Unknown

1,000% in all. I just feel like he's a look. He's a very interesting look. She's a vibe. He's like more like, you know, with the guitar. He's not. Video is tiny, and he's sort of like something about him. Like, I just my eyes go more towards him. Yeah, but Daryl Hall, I think he looks great. I mean, he looks he he looks like I feel like a lot of men in that era looks like, you know, like the jacket.

00;31;49;11 - 00;32;07;14

Unknown

It's like, yeah, I don't think it stands out a great deal. I think it does feel like it's just right right there. He's very attractive. Like, he's blending in. It's standing out. Yeah. Yeah. I think Oates is more you can see he has that front man energy. Yeah. It's just that little Poppy Oates back there in the background to have a little on.

00;32;07;14 - 00;32;26;17

Unknown

I'm curious. Okay, so I've been reading about this a lot lately, so apparently, like, they've always been pros, but they sort of separate for periods of time and like, do their own thing and then they come together. Yeah. And yeah, I read an article the other day that they were going to actually start working on another album in 20, 18 or 20, 20 Cove.

00;32;26;18 - 00;32;44;19

Unknown

It happened. They tried to do it like over Zoom and then they were, they're so old school. They're like, if we're not in the same room, like, yeah, this just isn't working. So they've both been kind of doing that. They both write their own music and do their own thing, you know, Daryl's got a show that he does from his house where people come over and make music, and so they both kind of have their things happening.

00;32;45;08 - 00;33;14;06

Unknown

I have to tell you guys, though, is it a little bit of a side note I was watching party on HBO last night. Have either of you watched the first episode of that? So in the first I only watch first episode, but in the first episode. So Dave Franco is playing this like actor, pop star, a singer. They show a flashback to a movie that he was in, which was a Hall and Oates biopic and they have like a whole scene acted out with Dave Franco dressed as Daryl Hall.

00;33;14;14 - 00;33;32;23

Unknown

And I really want to find the clip and I want to put it up on the socials, but I found it very entertaining. So I Googled it afterwards. And apparently the people who put the show together were so excited about that scene that it inspired them to want to do an entire bar like Hall and Oates biopic. So they totally should watch that.

00;33;33;04 - 00;34;08;29

Unknown

Right? So that could be on the way. That's cool. It'll be interesting. Yeah, yeah. So yeah, I have another question for you, Bryan, and then I have a fact. I have a fun fact. My question next, my question has to do with I'm curious about your thoughts about mustaches and sexuality. Oh, I feel like there's I am not a mustache scholar, but, you know, I feel like the mustache is is a kind of a sexualized piece of facial hair.

00;34;09;10 - 00;34;36;15

Unknown

And I just love to hear any thoughts you have about. Well, it's it's it's interesting because it's so the queer gay men fetishize masculinity. So what happens is mustaches traditionally are facial hair in general is hyper masculine. You know, it's something only a man can do. You know, only a man can grow a beard. I mean, women, I'm sure can if they hormones and all that stuff.

00;34;36;15 - 00;35;07;05

Unknown

But it's it's still it's a very masculine sort of announcement on your face. And boy, what happens. Gay men often like you see with the village people, you know, they take these caricatures mustaches included up hyper masculinity, and then they sort of regurgitate it as a queer identity. And it rides a line, you know, I feel like that some people especially, you know, probably 15, 20 years ago would have seen a guy in a mustache and thought, okay, maybe he's gay.

00;35;07;05 - 00;35;29;10

Unknown

At least in L.A., you know, because it did have that connotation. These days, though, it's interesting. You know, it's very masculine. I mean, you know, the move ember, Movember, is it? Right, right, right. Yeah. And, you know, I have a friend, a friend who's

a firefighter. They all have mustaches. And these are the most masculine ever seen, you know, and they all have super groomed, perfect mustaches.

00;35;29;19 - 00;36;08;06

Unknown

So it's it's interesting how, you know, I think men do like the male gaze. They want the affection of other men and women right now. And so it does get intertwined with sexuality. Because, of course. And you're attracting a sexual gaze as well. Right. So I think it's it's it's it's interesting. I mean, I think we're getting to a place where the heterosexual experience, you can admit to the world that you're okay with the male gaze and you're okay with being the subject of, you know, the fantasies of the queer community.

00;36;08;24 - 00;36;29;21

Unknown

Whereas before it would be like not okay whatsoever. But I do think I think anything has those connotations I mean, I just I think that it's the hyper masculinity that attracts it to the queer community because it represents like this idea of a man. And you see a lot of MTF trans people are so insistent on growing facial hair.

00;36;29;21 - 00;36;52;13

Unknown

Like that's a big part of their trans right. I think I have to have I'm sorry, I get those mixed up. Yeah. Yeah. So but that's like a very big part of it, you know, having the facial hair because it says, hey, I'm a man it's interesting that you mentioned the Movember. Naomi, you know about Movember, right? Which is so Movember is it's it's prostate cancer.

00;36;52;13 - 00;37;11;27

Unknown

Am I correct, Brian? Is that correct? I believe it is classic Movember, the movement's so awareness. So every November, men will grow their mustache for the entire month and raise money for prostate cancer. I know that. And I'll put this on the website because I don't have it pulled up because I forgot about it. But but it's a really interesting thing.

00;37;11;27 - 00;37;35;28

Unknown

And so it's kind of brought mustaches into the mainstream a little bit, at least for that month. You know, like men from all walks of life, walks of life are growing mustaches for an entire month. It's turned it into kind of like a hipster thing that even the kids, you know, 2030s are are growing mustaches and they're doing like the wax and they're, you know, playing with all of the things and so it's kind of like saying or is this like everywhere?

00;37;36;12 - 00;38;06;12

Unknown

I think it's probably a coastal thing, but more so than anything. But yeah, I mean, technically it's everywhere. A lot of celebrities do it a lot of, you know, it's, it's all over. I mean, I've seen it international very much. Social media. Yeah. It's a social media thing. It's kind of fun, you know, and that's a good point because it does it does toss a mustache on on a young person, which, you know, I think we always associate them like you think of Tom Selleck, like all mustache, Tom Selleck, firefighter's dads you know, you kind of go there at the Village People, great example.

00;38;07;22 - 00;38;25;02

Unknown

But then, you know, when you see now more and more of like the younger hipster kids are kind of working mustaches into their repertoire. It's interesting. So you're mentioning Tom Selleck. You brought me to the fact that my facts that I wanted to share with you, I always like to try to bring one thing at least to try to surprise you.

00;38;25;26 - 00;38;58;23

Unknown

March 24th 2015. The Philadelphia Inquirer reported on the induction of John Otis Mustache into the Mustache Hall of Fame. Wow. The Mustache Hall of Fame had only recently been established by American Mustache Institute. And while trimmers in hope in hopes to canonize the superior attractiveness of sporting facial hair, superior and superior and Otis, the other people who were inducted at the same time as John Oates were the Reverend Dr. Martin Luther King Jr.

00;38;59;02 - 00;39;20;13

Unknown

Interesting. Tom Selleck. Mm. Teddy Roosevelt and Salvador Dali. Salvador Dali has another thin one. That's another thing. Yeah. Now, they even say that like, wait a minute. And he had all the curls and all the things that gave us everything. I mean, that's another one that he just stands up like, you see images of him. I'm like, I love you.

00;39;20;16 - 00;39;42;26

Unknown

Like, he was, like, fashion forward. Always like, yeah, yeah. He just this the way he and the way he took photos, he always was, like, making weird facial expressions. Yes. You know, he was. Yeah, but he's good. Like, do you guys not everyone can get away with that. Like, actually, I think almost no one but Salvador Dali, you can get away with, like, I was like wild eyed facial expressions that he would make.

00;39;43;20 - 00;39;58;02

Unknown

Yeah. I mean, you have to be living that life. I mean, it was totally consistent with surrealist life. That's right. But I feel like he created a character which if in the art world,

that's the smart thing to do is to create this caricature around you. You know, he did and he was thorough. He was like, this is.

00;39;58;02 - 00;40;26;19

Unknown

Yeah, this is why I'm in a baby. I always think about that of people like Sia. You know, people have created this whole, like, vibe, and you see that and you immediately like that silhouette, that hair, that facial you know, you know that that's them without any sort of caption on a photo. It's like immediately, you know, I think it makes it easier to see us talked about this, and I'm sure it was same with Salvador Dali it's easier to go between the characters so you can live your personal life as whoever you are and then see always says, I put on that wig.

00;40;26;19 - 00;40;46;05

Unknown

I do know that's when I can go into this other character who's the performer, you know, when I can keep them separate. Yeah, I think I think a lot of people do that, and I think interests are part of it. Yeah. And I think that goes into it goes back to like why Oates ended up shaving his mustache at a certain point because he's like, this mustache is associated with me being a certain type of dude.

00;40;46;05 - 00;41;03;27

Unknown

The story bigger than the man. It got bigger than the man, you know, the studio. 54 rumors were so intense that at a certain point is like, I got to shed the skin, move into the family man that I am now. Yeah, and and, you know, become that, which is so interesting. It's a good one. It's a good one.

00;41;04;16 - 00;41;22;09

Unknown

And it is such a shift. I mean, taking a mustache off of the face is it's totally different person when it's risky, especially when you've had it for years and years and years and years, like, what's going to happen? How's it going to look? You know, it's like shaving your head, like it's like psychologically, like receiving the image of someone's face.

00;41;22;09 - 00;41;44;20

Unknown

It's like so much easier to add a mustache than it is to subtract one. Like when something when you're used to someone who's had facial hair and then suddenly it's gone. Like this area right here. It looks huge. Right? It looks weird. Like no matter who you are, I think. Yeah. Yeah. I mean, you know, you remember on Schitt's Creek when Mutt shaved his beard and then Alexis broke up with him because she was like, what is happening here?

00;41;44;28 - 00;42;01;19

Unknown

And she even says, dumb. She's like, why should we have had a conversation about this? Shouldn't we discuss this? And I remember at the time thinking like, yeah, she's I'm kind of with her on that. Like, that should have been a conversation change. And oftentimes you're like we said earlier, you're the shape of your face completely changes, you know?

00;42;01;19 - 00;42;18;16

Unknown

And I've seen a lot of guys who have the mustache. They look awesome. They take it down. They have like no upper lip and like I had no like, you know, I don't even know. They never see it. And then you go, whoa, like that is a totally different person, right? And it was a big big, full upper lip right there.

00;42;18;26 - 00;42;39;28

Unknown

Yeah. I've seen it a bunch where and I realize now that they have mustaches because of that because like they have really thin lips and it really pronounces their lips more. Yeah. Yeah. And it's shocking. It is shocking. It is. The removal of facial hair is always shocking. And I've actually several times tried to talk tried to talk my husband into when he's shaving like a beard off to keep the mustache.

00;42;40;09 - 00;42;55;10

Unknown

He did it once. I have one photo of him. We went to a museum and took a picture and he has a mustache. And then you should do that, too. One time this is not the best look for him. But we did take a picture. You take a picture. I mean, like and Chad, you know, Brian, your husband, for example, he he looks great with all without a beard.

00;42;55;10 - 00;43;10;28

Unknown

So you're kind of lucky there. I like the it's red. So I like, you know. Yeah, it's fun to have a red beard. Red. Yeah. Yeah. It's a whole look. It's a it's a whole like. Yeah, you get stopped all the time because, like, he likes to run in the neighborhood, and it's just funny with you, are you the same person?

00;43;10;28 - 00;43;33;07

Unknown

And then this woman was like, are there two men with red beards? Is it possible? No, no. Yeah, we have to. We it's okay. This is kind of strange. I live in San Francisco, and there are some hipsters on my block and three of them have red on my block. They're three men with red hair and beards, and I.

00;43;33;07 - 00;43;56;23

Unknown

I am like, red blind. Like, I can't tell them apart. They all have. Well, at least two of them have children. One of them's a little scrawny or the than the other, but but, yeah, it's I

mean, they're definitely very noticeable, but then I'm like, okay, wait. Which variation of the because you had an incident recently with one of them where you start with one of them was the other one for one of the beards.

00;43;56;23 - 00;44;18;05

Unknown

But that was, I mean, maybe it's just it might be that I read license that might actually be the truth about well, red headed people tend to look alike. I'm sorry. Especially, you know, it's like I but I'm not surprised there's three of them because it's, it's becoming rare in rare red hair. You know, I think it's and you get a lot of play if you have a red beard, people just come up to you.

00;44;18;13 - 00;44;32;13

Unknown

You know, we're out all the time. People just come up to chat all the time, talk about his beard, you know, so yeah, I think back in the day, like the ginger beard was one of those things that you kind of avoided, you know, like, I think he got a bad rap and now the ginger beard is like having its day.

00;44;32;29 - 00;44;55;27

Unknown

Yeah. Yeah, I love it, obviously. Yeah. No, Chad said, you know, when he was a kid, people made fun of his hair, his hair color, and he always felt like, you know, people would say that they're, like, somehow inferior if you're a redhead. Yeah, like the redhead. Kids were always the joke, right? In movies, they were the bullies or they were the, you know, the kids that got chased or you know, whatever with the freckles, like the obese culture is, like, really disturbing.

00;44;55;28 - 00;45;18;04

Unknown

I've heard, actually, that the French really discriminate against redheads. Like, one of my coworkers, his wife is French, and they have three gorgeous children, totally red hat. And apparently his in-laws were like, oh, it's such a tragedy. Yeah. I think Prince Harry was the one who really changed it. You saw. Oh, interesting. Interesting. I was going to ask you, like, what changed this perception of redheads?

00:45:18;13 - 00:45:37;09

Unknown

Because he's such a redhead. He's beautiful. And he's a fox. Yeah, yeah, yeah. But, you know, he's a royal and he's a royal. He's like my all foxy redhead. People are like, Oh, it's okay. Now we can do this. It's great. In large part of it. It's the gingers are having their day. Yeah, I love it. That's fantastic.

00:45:37;23 - 00:46:03;13

Unknown

That's fantastic. All right, well, do we have any other questions for Brian I know you're a very busy, busy man with two very adorable ginger headed children that you spend the day with. I have one. I have just like kind of a wrap up question. I first of all, and it's okay, to be honest. A, are you a fan of hauling out okay if you're not even though I did say the show's about respect and then I only B, okay, and then B, what's your favorite song and why?

00:46:05;03 - 00:46:27;09

Unknown

Oh, God, I can't remember the name. There's a song that's sampled all the time by hip hop people. Oh, I try to sing it a little bit. I get it however you can find it. Take your time. Take a time. It's it's the one that sounds like late nights. Oh, well, it's it's the take your time. Is it is it that Peter Rabbit is out of touch?

00:46:27;23 - 00:46:45;00

Unknown

I, I can't go for that. I can't go for that. I can't go. What's going to be. I can't go it. I still can't do that now. Another song, just like the song. I don't know if you knew, but today we were featuring you make my dreams come true. And that come true is in parentheses and out of and I can't go for that parentheses.

00:46:45;00 - 00:47:02;16

Unknown

No can do. So I love that. Yeah. We're talking about, like, the difference that parentheses make to a song, how completely changes the meaning at a certain one might fit. That's a song that I like. I feel like I get different meanings every time I listen to it. Yeah, yeah, yeah, yeah. And that's the big. It's yeah, it's intense.

00:47:02;16 - 00:47:18;09

Unknown

It's like now and just the music itself. It's like, huh? You know, that's the thing about a lot of these songs that we've discovered. One of the reasons why we're actually doing this podcast is if you go back and you actually read the lyrics, it's not because, you know, we lose the kids in the eighties and you're a little younger than us, but like we didn't have access to the internet.

00:47:18;09 - 00:47:40;19

Unknown

All extremely young, though. We're all very young, but somehow we're all the same age somehow around in the eighties and we're pretty ish for this issue and you know, but we can look up lyrics. So there were so many songs that I sang wrong for most of my life and then as an adult look at lyrics like, Oh my gosh, I've been singing that wrong for the 27 years.

00:47:40;19 - 00:47:57;09

Unknown

Singing it totally made. Makes sense. It completely made sense. That's what I actually I change or something because I'm like, That applies to me better. Right, right. I love songs about them and I'm like, I'm just gonna change that. To change it in my head. And my kids do it all the time. They're like, You're singing that wrong.

00;47;57;09 - 00;48;12;20

Unknown

I'm like, I don't care if this is how I'm singing it. This is how the song goes in my head. I've never looked at the lyrics, therefore I can't prove to myself that I'm wrong and it doesn't matter. But yeah, as you go back and you read the lyrics for all these songs, like some of them, they've got kind of deep stuff going on in them.

00;48;12;21 - 00;48;31;10

Unknown

Like there's a lot to unpack in some of these songs. Which is why I think they were hits, you know, because people they to keep listening to them over and over again right now getting tired because there are there's some lyrics to it right well, even, you know, I was talking to someone the other day and they were saying, you know, I'm not really a huge Holland Oates fan, but if you put a song on, I know all the words.

00;48;31;28 - 00;49;00;20

Unknown

Yeah, and it's all notes. It's like a class like American band that, you know, I feel like I have all these mixes that when we have people over, they're always on it because everyone loves all their music. You cannot hate their music. It's perfectly like happy, good feeling music. Yeah. And then actually today song, I did want to say that You Make My Dreams Come True is like a 180 degrees from the song we did last week, which was a little known song called Laughing Boy on their second album, which is called Abandoned Luncheonette.

00;49;00;20 - 00;49;18;21

Unknown

And a lot of it was a pretty despite the title. It's a pretty sad song. Yeah. Because it's like, it's like an ironic title, but you make my dreams come true. It's just, it's just kind of pure joy, really. It's just it's like happiness. It's like a bop. You put it on and you're like, dancin. It's like, well, yeah, it's temporary.

00;49;18;22 - 00;49;38;18

Unknown

Yeah. It's just so happy. Veritable sun, beach mimosas oh coffee mimosas. We almost that we do have. And I'm really, really sorry we didn't get you this recipe ahead of time because I don't know if you'd like us and like to start drinking a chat in the morning, but I wish we knew we did. We do try to do, like, a cocktail every week.

00;49;38;18 - 00;50;12;28

Unknown

So we ended up doing the mustache ride, which may or may not have a sexual innuendo to it. And that features and features like Bourbon and Chandler and and maple sirup and stuff. But the other one was called the Manly Mimosa, but it has so much going on like. And it was a mimosa made with beer. No, I had champagne and beer and then and like 50 other things which are great but a little much for 10 a.m. that if I don't have kids like I don't have to do stuff with them.

00;50;13;12 - 00;50;33;14

Unknown

But yeah, the bourbon and the you that wasn't too much. Well no it's actually sounds like it's fun. It's where are my kids right now. My kids are actually at my house because they don't they got on a plane to L.A., They went to barricades. So I have bourbon. I got the recording and picked them up. So I'm now Naomi is not ignoring her children.

00;50;33;14 - 00;50;57;28

Unknown

I'm ignoring her children. So it's so that they're older, though obviously they know they're 2013. They're fine. Their parents are older. It's fine. But now I asked is when they're like, what's that smell on your breath. It's a kind of gum that daddy but we lived in Cuba for six months and at that point we end up drinking a lot because it's just like we didn't have that much to do.

00;50;57;28 - 00;51;19;04

Unknown

And the rum was so good and then our kids were about eight or nine at that time and they were like, you know, they literally said, you know, we're worried that you're drinking too much and they don't ever like what should we do? Because clearly I think less was not the option. It was like, hide it, hide it, bother at school, don't drink, let's drink glass when they're around.

00;51;19;04 - 00;51;39;17

Unknown

That's in parentheses. Drink glass when they're around in parentheses. All those parentheses will save us. Yes, yes. I said it when I tell my kids, like, about Coca-Cola, like, it's really bad for you. He's like, like beer. And I was like, Okay, so you're all different, really different categories. And we're talking about you right now.

00;51;41;22 - 00;52;13;29

Unknown

You're over 18. We'll have this conversation about how it's there. Seven, man, you are in, you're in. You have twins. Two Yeah. Oh, yeah. And they're said, Gosh, they're saying, you. That's sweet. I don't know if Mary came closer, but we ended up having holidays together. Vacation? Why? Well, what's interesting is the whole reason, which is why I wanted to bring this up we were on vacation, and I'm in the pool and I look over and I see this glorious gentleman with ginger hair and a massive beard walking by, and I but that's Chad.

00;52;14;01 - 00;52;39;05

Unknown

Like, I just came from that. It was him, and it was so much joy. There's nobody that I would have wanted. The beard was probably noticed first. And that's why facial hair is so crucial to society. It's the reason we had a good vacation hold because of his beard. He got a present. It was that this nation was saved because of his beard.

00;52;39;18 - 00;52;58;10

Unknown

And what if he hadn't crossed paths? You know, what if he hadn't walked past the tree with his beard? You know, blowing in is at that time, like, I never would have guessed the butterfly effect. And then there's the beard effects, and you just you never know where the ripples are going to you never go naked. That's all you meant to call, right?

00;52;58;10 - 00;53;24;28

Unknown

Is Daqahliya okay? What was your what was your major? That was an arts and theater. Amazing. Yeah. I love how I did my art. She was like between UCSF and Cal, and I just the Cal campus is just so great. But Berkeley drives me crazy. I'm going to be which part? Which part? The I think the self-righteous white people who are well, it's very it's very that.

00;53;25;05 - 00;53;46;10

Unknown

But I will say it's the only place I've lived where, you know, it's very focused on equality. And I did create a nice vibe in the community because everybody was so concerned with everybody else being the same, like having access to everything. And it was the first place I lived where there was a lot of handicapped access you know, and this was like 20 years ago and I loved it.

00;53;46;10 - 00;54;04;21

Unknown

I know why. Let me tell you why. This is very this is cool. We may probably just edit this out, but I want to I want to just say this because Marilyn Golden is to be credited with this, and she passed away relatively recently. It she was one of the architects of the ADA and she lived in Berkeley for many, many years.

00;54;04;29 - 00;54;22;25

Unknown

Why do I know about Marilyn Golden as she was married to Rabbi David Cooper, who is a rabbi who did my husband's bar mitzvah who married us, who just so did my my twins became mitzvah. And, you know, Marilyn, you can read about her in The Washington Post, her obituary, but this is why she fought and fought and fought.

00;54;22;25 - 00;54;41;03

Unknown

And it all started in Berkeley. She was not alone. She's just the one that I know about. And that's why Berkeley is like one of the most accessible places that actually makes it so nice. Because, you know, like, everyone can get together from all walks of life, you know what I mean? I just felt like I there was just such a freeness to that, that everyone can access everything.

00;54;41;09 - 00;54;58;02

Unknown

Yeah. I loved it. And I remember at first when I first moved there, I really noticed and I was like, wow, there's like handicapped boxes for everything. But then it just created this sense of, like, we're all in it together. I don't know. That was just cool that I took away. I was like, you know, more access to more people actually makes a better community.

00;54;58;20 - 00;55;18;11

Unknown

Oh, yeah. Oh, yeah. That's so that's. Yes. Yeah, it is annoying because they do get a little crazy, but. But I like that. I liked that about Berkeley. Yeah, that's beautiful. Yeah. You're always much less accessible. I've had a lot of experiences going out with people and having massive issues in LA where they, like, don't have an elevator, they don't have a lift.

00;55;18;11 - 00;55;33;09

Unknown

The only stairs to get into it they only there's no ramps, there's no whatever. It's like, we want to come and have lunch, you know, it's awesome for just older people. I don't know. I, you know, I have an older father and, you know, Chad's parents just having that ramp, but not stairs. Like, it's just it just makes everything easier, so.

00;55;33;16 - 00;55;55;04

Unknown

Well, thanks for coming, Brian. This was really you know, I had so much knowledge. You really helped us begin to get to the bottom. I mean, I think there's there's always more exploration, but you revealed so much and also the fashion like you broke it down and there was such a high level there with the brutalism and all of that.

00;55;55;04 - 00;56;13;03

Unknown

So I'm really I'm really looking forward to be listening and unpacking and taking notes thank God. Thank you. It was really nice to me. Some day I hope to see we will. You, too. We'll see you since I had chance to see you next time. And what are we gonna do to wrap up what to do out quotes and we still have to wrap up all the old clothes.

00;56;13;07 - 00;56;33;07

Unknown

Going to be a long episode in respect to this song. You Make My Dreams Prince's come true. John Oates said the song came about through a happy accident. My guitar

player, friend of mine and myself were jamming in the dressing room, and I started playing a Delta blues and he started playing a Texas swing. And then we put them together and all of a sudden into my head popped.

00;56;33;13 - 00;56;54;11

Unknown

You make my dreams. I started singing it. I don't know why, but I did. And it sounded really cool and everyone liked it. It was as simple as that. So he's actually he's kind of gotten to he's basically solved our our question here is like the original song is just You Make My Dreams. Yep. So it added time had come true.

00;56;54;17 - 00;57;16;10

Unknown

I did like like you said. Well, I think you meant to say what you make. I just can't, you know, I did. Yes, you did. Well, yes, you you're going to put it there, put it with parentheses because I want to stand alone. You make my dreams. Maybe that was the compromise that was, you know. And then another quote that he said is he said, you make my dreams connects with the younger generation.

00;57;16;10 - 00;57;34;01

Unknown

It's simple. It does it and has a great groove because the reason he says this is because. So this song was actually featured in a movie called 500 Days of Summer. Which I've never seen in a lot of songs by I mean a lot of a lot of other stuff. I mean, it was in that it was also Joseph Gordon-Levitt, right?

00;57;34;13 - 00;57;51;04

Unknown

Joseph Gordon-Levitt, I love you, Chanel and it was in The Wedding Singer. It was in Dumb and Dumber. It was in Despicable Me two. Like this movie has been in a time.

The song's been a time of Is So Despicable Me two, I think is better than Despicable Me one and maybe it's because of this song. I think it's 100% is because of the song.

00;57;51;04 - 00;58;12;19

Unknown

I love Despicable Me two That is a great movie. I do like Despicable Me one. I did. I did. I like GRU. I just like him as a character. And so a question that someone asked about you know, when I was talking about biopics earlier and biopics, I always want to say biopics, but then someone corrected me recently.

00;58;12;19 - 00;58;29;14

Unknown

It was like, don't say it's biopic. And I was like, Now I feel stupid every time I say it because I'm either saying a biopic and people think I'm wrong or I'm saying biopic. I think I'm right wing. I can't win by a by biographical documentary photographic you know, movies that was a biopic. Get it? Like, I don't know.

00;58;29;29 - 00;58;47;13

Unknown

Anyway, a movie, a movie about Holland. So there's a trend in creating these types of movies right now. And so Oates was asked, you know, would you like to see a Daryl Hall and John Oates one? And Oates said, Sure, why not? I'm open to possibilities. If that's what someone wants to do, I'd be curious to see who might play me.

00;58;47;13 - 00;59;07;21

Unknown

I want Robert Redford to play me the perfect candidate. So obviously, this was Robert Redford to play John Oates and then he said, ridiculous. And then he said, However, I'd have to be hired as the mustache consultant. It would be very important condition before I would. Okay. The project, what here is this quote from? This quote is from the nineties.

00;59;07;21 - 00;59;28;23

Unknown

I even when Robert Redford was too old to play John Oates. Right. Right. So I think that either that name was quoted wrong or because I feel like he would have said Tom Selleck or he would have said like like, why Robert Redford? Do you feel like a current person in mind? I'm wondering where this is going, if you because I'm trying to think of one.

00;59;28;23 - 00;59;48;05

Unknown

But, you know, celebrities like, you know, you're L.A., you know, I know. I know all the celebrities I don't know. I'd have to give that some thought. Joseph Gordon-Levitt earlier and he's in my mind that he'd be appropriate. He would be a very appropriate drawn out because it's kind of small and like and like he says and he could, like, do that curly mullet.

00;59;48;05 - 01;00;06;11

Unknown

We somehow work Andrew Garfield into this scenario because I love Andrew Garfield. Could he be a Daryl Hall? He could. We just have to straighten his hair. He could do a blow up, blow it out. We're going to blow our bleach. Andrew Garfield, Phil's hair. He just did that thing. Did you see the tech boom? Yes. Yes, job.

01;00;06;11 - 01;00;28;15

Unknown

He did a great job. He's picked the last straw man with chops. He's got the vocal chops. Be Daryl Hall. Okay. And Joseph Gordon-Levitt as John Oates or other people and other people. I mean, you know, I'd like to see it spiced up. I mean, I guess it does have to be two white guys because, like, you know, I think I can think of a ton of really hot, mustachioed men, but most of them are not white.

01;00;28;15 - 01;00;49;19

Unknown

And so that I guess it has to be two white guys for the casting, right? Do we have to go this has come up. This is the second time this has come up. Did we ever I think Otis ethnic background might be Italian-American. I'm going to say yes to that. But I cannot say it, although Otis is not the most Italian name I've ever heard, but I'm not 100% sure he's not ethnically ambiguous.

01;00;50;06 - 01;01;19;16

Unknown

Yeah. Yeah, but, you know, I think, you know, we should we should certainly, certainly not limit the casting to white men. Like, it's terrible, you know. Right. I wouldn't call to this non-existent biopic. Biopic, biopic, biopic. Yeah. I mean, all genders are available really. And actually Kate McKinnon would be the best. Oh, my gosh. I she got amazing.

01;01;19;16 - 01;01;38;03

Unknown

Dad, are you kidding me? I will watch Kate McKinnon do anything. I think will, too. I will, too. You know, is no limits. No. If you going to just go that way, then, like, Maya Rudolph would be John or Janet's. Right. Okay, okay. That's more done. That's it. And we're going to get Kristen Wiig to be Jimmy Smith.

01;01;38;03 - 01;02;05;22

Unknown

And okay. An all female. Right. Gender blind casting of the holiday notes by there is there is a we have to look at this for next time because it's running way too long but please do look up the band Garfunkel notes and let's research and we'll see if we can possibly invite them on in the future.
